

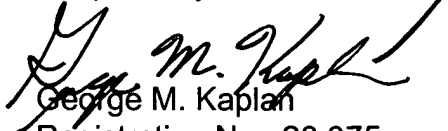

Fig. 1 illustrates a camera 4 having as recording medium, a film 2a shown in views A, B and D, or an electronic device 2b shown in Fig. C (reference is being made to the accompanying legend defining the reference numerals). The claimed element 1 for creating a light signal is illustrated in different positions in these various views A-D;

Fig. 2 illustrates a film 3 having recording media for the signal 1a-c created by the claimed medium for creating the light signal. Different types 1a-c and positions of the signal are illustrated in Fig. 2. Figs. 3 and 4 illustrate schematic flow charts of the processes respectively claimed in Claims 19 and 20.

Fig. 1 finds support throughout the present application, e.g., on pages 9 and 16-21, with Fig. 2 finding support, e.g., pages 9-15. Figs. 3 and 4 also find support, e.g., on pages 14 and 15 in addition to other locations throughout the present application. Accordingly, approval of the enclosed drawings herein for introduction into the present application is respectfully requested. Appropriate formal drawings will then be submitted to the Patent and Trademark Office upon receipt of a Notice of Allowance and with the specification amended to reflect introduction of these drawings. Please contact the undersigned attorney should there be any questions.

Early favorable action is earnestly solicited.

Respectfully submitted,

George M. Kaplan
